

Growth Plan v1

Host seeding · User acquisition · Agency network · Retention · Budget

Yeh bucket sabse hard hai. Zyada tar apps yahin marte hain — product ban jaata hai, phir 20 hosts hote hain aur khaali rooms.

Core problem

Users tabhi aayenge jab rooms bhare hon. Hosts tabhi tikenge jab audience ho aur paisa mile.

Ise ek saath solve nahi kar sakte. Supply pehle kharidni padti hai.

Yeh marketing spend nahi hai — yeh **inventory** hai. Zomato ne restaurants subsidize kiye, Uber ne drivers. Har marketplace supply kharidta hai.

Sequence — ek line mein

Hosts kharido → rooms bharo → users free channels se laao → retention theek karo → agencies se scale karo → tab jaake ads.

Iska order badalna sabse common galti hai.

Phase 1 — Pehle 50 hosts (Month 1-2)

Manually aayenge. Koi shortcut nahi.

Sources

Source	Kaise	Realistic yield
Competitor hosts	Bigo, Poppo, Chamet, Vone par live jaake DM	15-25
Instagram micro-creators	1K-20K followers, singing/dance reels	10-15
Regional YouTubers	5K-50K subs, chhote channels	5-10
Referral	Har onboarded host se 2 aur	10-15

Competitor poaching sabse fast hai. Woh already trained hain, camera se nahi darte, payout system samajhte hain.

Pitch — paisa mat becho, attention becho

"Bigo par aapke 40 viewers hain kyunki wahan 5,000 hosts hain. Humare paas 30 hosts hain. Aap din 1 se top 5 mein rahoge. Aur pehle 3 mahine guaranteed ₹15,000/month, chahe gift aaye ya na aaye."

Seeding cost

50 hosts × ₹15,000 guaranteed

₹7,50,000/month

3 mahine

₹22,50,000

Tapering plan

Period	Structure
Month 1-3	Full guarantee
Month 4-6	Guarantee ya actual earning — jo zyada ho
Month 7+	Sirf actual earning + performance bonus

Guarantee ki shartein

- Minimum 60 hours/month live (roz ~2 ghante)
- Minimum 20 active din
- Zero violations
- Pro-rata — 30 hours kiye toh aadha

Contract mein "guaranteed minimum earning" likhna, "salary" nahi. Worker classification ka risk yaad rakhna.

Phase 2 — Pehle 1,000 users (Month 2-3)

Paid ads bilkul mat chalo is phase mein. ₹200 CAC par aise users aayenge jo kabhi kharch nahi karenge aur D1 mein chale jayenge.

Jo kaam karta hai

1. Host apne followers laaye — sabse sasta aur sabse quality wala channel.

- Har host ko personal referral link
- Uske referred users ke gifts par **extra 10% points**, 3 mahine tak
- Isse host khud marketing karta hai

2. WhatsApp groups — regional entertainment, music, city-based groups. Host apne live ka link share kare.

3. Shareable live link — koi bhi bina app ke web par 60 second preview dekh sake, phir install prompt. **Yeh Phase 0 feature hai**, baad ka nahi.

4. Reseller network — reseller ko user laane ka natural incentive hai, uska margin usi se banta hai.

Cold start — product se solve karo

Jab 10 rooms hain aur 50 users, app khaali lagta hai. Fix:

- **Rooms consolidate karo** — 10 ke bajaye 4 dikhao. Har room mein 12 log > har room mein 5
- **Peak hours enforce karo** — sab hosts 8-11 PM slot mein, poore din bikhre nahi
- **Viewer count absolute mat dikhao** shuru mein — "Live" badge kaafi hai
- Naye user ko turant **sabse bhare room** mein daalo, feed mat dikhao

Phase 3 — Agency network (Month 4-8)

Ab tak aap khud hosts la rahe the. Ab outsource karo.

Pehli agencies kahan se

Existing agencies from other platforms. Bigo/Poppo/Chamet ki agencies already 20-100 hosts manage karti hain aur multi-platform hone mein unhe koi problem nahi.

Pitch: "aapke hosts wahan bhi rahen, yahan bhi. Humara commission tier better hai aur competition kam hai."

Launch incentive — pehli 20 agencies

Milestone	Reward
10 active hosts, 30 din	₹25,000 one-time
25 active hosts	₹75,000 one-time
First 3 months	Commission tier +4% boost

Target trajectory

Month	Agencies	Agency hosts	Direct-signed
4	5	120	50
6	15	350	60
9	35	800	80
12	60	1,500	100

Agency dependency 60% se upar mat jaane do. Warna ek agency 200 hosts leke competitor ke paas chali jayegi. Direct-signed hosts aapka insurance hain.

Phase 4 — Paid acquisition (Month 6+)

Ads tabhi chalao jab teeno sach hon:

- D7 retention > 15%
- Paying conversion > 2%
- Rooms consistently bhare hue

Channels

Channel	CAC (install)	Note
Meta (IG/FB)	₹40-80	Primary
Google UAC	₹50-100	Secondary
Influencer barter	₹20-40 effective	Best ROI
Regional YouTube	₹30-60	Tier-2/3 ke liye achha

Must-do: ad creative mein **actual live rooms** ka screen recording dikhao — real room, real gifts flying. Stock footage se 3-4x better perform karta hai.

Payback math — kyun abhi nahi

CAC	₹60
Install → register (60%)	₹100 per registered user
Register → paying (2.5%)	₹4,000 per paying user
Paying user gross margin, 3 months	₹1,200

₹4,000 kharch, ₹1,200 wapas — yeh loss hai.

Ads tabhi kaam karenge jab conversion 2.5% se **6-8%** par pahunche. Isliye pehle retention aur conversion theek karo.

Retention — growth se zyada important

Naya user laana mehnga hai. Purane ko rokna sasta hai.

D0-D1 (sabse critical)

- Signup ke turant baad **sabse bhare room** mein daalo
- 500 free coins do, aur ek gift 50 coins ka rakho — woh pehla gift bhej sake
- Host ko naye users ka signal do taaki woh naam le sake. **"Welcome Rahul!"** — yeh single moment D1 retention 2x karta hai
- 2 ghante baad push: "Priya abhi live hai"

D2-D7

- Daily check-in streak
- Followed host live hone par notification — sabse strong re-engagement driver
- Pehla fan club invite

D7+

- Fan club membership
- Level progression visible
- Weekly event participation

User-side targets

Metric	Month 3	Month 6	Month 12
D1 retention	25%	32%	38%
D7 retention	10%	15%	20%
D30 retention	4%	7%	10%
Paying conversion	1.5%	2.5%	4%

Host-side targets — yeh zyada important hain

Metric	Target
Host D7 retention	> 40%
Host D30 retention	> 25%
Avg live hours/host/month	> 60

Budget — pehle 12 mahine

Item	Amount
Host seeding (tapering)	₹35-45L
Agency launch incentives	₹8-12L
Paid ads (Month 6+)	₹15-25L
Referral rewards	₹5-8L
Total growth spend	₹63-90L

Yeh product build cost ke **upar** hai.

Yeh woh number hai jo zyada tar founders underestimate karte hain — aur isiliye funding tab raise karni padti hai jab product ban chuka ho aur paisa khatam ho chuka ho. Isko abhi plan karo.

Milestone gates

Gate	Condition	Tab kya karo
1	100 active hosts, host D7 > 30%	Phase 1 features build karo
2	Payout ratio < 40%, positive gross margin	Marketing spend badhao
3	1,000 DAU with organic growth	Funding raise karo
4	Paying conversion > 6%	Paid ads scale karo
